About Me

I am a student of the Information Systems Study Program at the Faculty of Computer Science, Universitas Singaperbangsa Karawang. I am a fast learner who quickly adapts and has a strong curiosity about various subjects. I have a keen interest in UI/UX design, system development, and the utilization of information technology to enhance efficiency and innovation.

Education

2020 - 2023 | SMAN 6 Tambun Selatan | Science Program

The Science major in high school focuses on exact sciences such as Mathematics, Physics, Chemistry, and Biology. Students learn scientific concepts, conduct laboratory experiments, and apply science in everyday life.

2023 - Present | Universitas Singaperbangsa Karawang | Information Systems Study Program

A major that combines information technology, business, and management to manage, develop, and optimize systems within an organization. This major also focuses on the design, management, and analysis of information systems to improve efficiency and effectiveness in decision-making.

Experience

2022 | Excamp Committee (Extracurricular Camping).

This is a recruitment event for students joining extracurricular activities in high school. I was responsible for the First Aid division.

2024 | Revoist Committee (Information Systems Study Program Anniversary).

Responsible for the Logistics division, which is in charge of preparing all the necessary equipment for the event.

2024 | Participant in the Business Competition from Etnic x Interval 3.0.

Participated in a Business Plan competition and successfully ranked in the top 15 out of approximately 80 teams.

2025 | Member of Commission C in the Student Legislative of the Faculty of Computer Science.

Responsible for accommodating and managing aspirations, organizing hearings with the academic community, and handling publications that are educational, communicative, and informative.
